SEQUENCE OF COURSES FOR MASTER OF SCIENCE DEGREE IN ATTD

Individuals who have been accepted into the ATTD program for the Master of Science (MS) degree should attempt to take the following two courses as soon as possible once they begin their coursework:

   EPSY 5210  Educational Statistics
   ATTD 5500  Research Seminar in ATTD

Courses to leave until the last year of coursework include the following:

   ATTD 5480 (taught each fall)  Research Techniques in ATTD
   ATTD 5720 (taught each spring) Evaluation Seminar

These two courses should be taken in back-to-back sequence (ATTD 5480 during the fall semester followed by ATTD 5720 the following spring semester).

Leveling courses and other courses on the MS degree plan can be taken in any sequence during coursework. Consult the ATTD long range calendar of course offerings on the ATTD website (www.lt.unt.edu) in order to fully plan out the entire Master of Science (MS) program.
